Introduction to RMIT

The Research Manager Intensive Training (RMIT) programme is designed to boost research managers' professional development and increase their efficiency through carefully tailored sessions that combine a broad perspective with an individual approach.

RMIT's first course "New in the RM Profession" is open to all research managers with 0 to around 2 years of experience from any type of research performing or funding organisation, such as universities, universities of applied sciences, colleges, public or private research institutes, research & development companies, research funders and government agencies.

RMIT-1 training set-up

RMIT-1 is built around three core training blocks, covering the full research project lifecycle - from idea to impact. Designed from a research management perspective, it focuses on the added value that RMs bring to the process. A simulated realistic project based on an actual Horizon Europe call creates a unique, hackathon-style training experience.

Learning concept

1

International collaboration

Participants work together with peers from other countries. Organisational, cultural and other diversities will strengthen the learning.

2

Building own knowledge base

Participants will create and refine their own map of the research & innovation and research management landscape.

3

Personal development

Participants will advance their understanding of roles and activities for RMs in the project lifecycle, and train their skills and competences.

Wins for a starting RM

Master the Research Project Cycle

Gain full insight into managing projects from idea to close-out.

Navigate the R&I Landscape

Understand the complexities of research systems, policies, and funding.

Explore Career Paths

Develop key skills and identify growth opportunities in research management.

Hands-On Tools & AI Insights

Apply practical strategies and AI-driven solutions to daily challenges.

Build a Strong Network

Connect with peers and experts, enhancing professional collaboration.

Join the Global RM Community

Become part of an international network of research managers.

Why invest in RMIT-1?

Smart Investment

Intensive training maximizes value at a fixed, all-inclusive fee (excluding travel).

Competitive Edge

Strengthens your organisation's ability to secure funding and build collaborations.

Fast Onboarding

Shortens onboarding time, making new research managers efficient much faster.

Top Expertise

Hands-on training from internationally recognised leaders in research management.

Immediate Impact

Participants apply cutting-edge skills to drive institutional success.

Up-to-Date

Participants bring home latest trends and innovations in research management.

Practical details

Course Duration & Travel Convenience

RMIT-1 is a 3-day / 2-night course designed for easy travel.

1 June '26: Starts early afternoon with introductions & networking.

3 June '26: Ends around lunchtime - fly home the same day!

Venue

Hindåsgården is a beautiful conference & spa center in Hindås, Sweden, surrounded by forests, hiking trails, and a scenic lake.

It is at a 10-minute drive from Landvetter Airport - Sweden's second-largest international airport.

All-Inclusive Course Fee of 1,750 euro (excl. VAT)

- Course registration & materials
- Single-room accommodation
- All meals (breakfast, lunch, dinner, and Swedish fika)
- All course presentations and materials
- Airport transfers from/to Landvetter

Leiden Group members get discount, read more at website.

Meet us

Leading Partners

Olaf Svenningsen

Owner Research Lighthouse, Denmark

Trained as a geologist, I shifted to research support in 2000 at the US National Science Foundation. With 15+ years of experience, I have worked in research management at seven universities, two funders, and two research institutions across three countries.

Ellen Schenk

Owner DrEAMS Funding Consultancy, The Netherlands

Trained as a biochemist, I transitioned to research management in 2002. With 20+ years of experience in Life Sciences & Health, I have worked as a research strategy advisor, funding expert, grant writer, project manager, and trainer. Since 2022, I have been an independent RM.

Collaborating Partners

Stefania Elisabeth Grotti

General Manager, Fondazione Università Bicocca, Milan, Italy

I am an experienced Senior Research Manager skilled in leading multidisciplinary teams and creating strategic plans to achieve institutional goals. With extensive experience in securing funding opportunities, I focus on delivering impactful results and building strong international partnerships.

Stefania Suevo

Senior Research Officer, Politecnico di Milano, Italy

Trained in administrative and managing roles, I bring over 20 years of experience. I am also serving as a European Commission HRS4R evaluator. I enhance research management and performance strategies, delivering high-value services and building extensive networks across Europe.
